

4211 - Media Center Library Materials

1. Purpose:

1.1. The purpose of this policy is to ensure that all students have access through Washington County School District Media Center Libraries (“School Libraries” or “School Library” when referencing a specific school’s media center) to a wide range of learning resources at varying levels of difficulty and diverse viewpoints to meet the educational needs of students and teachers and support the educational mission of the School District (“District” or “WCSD”). The Washington County School Board (“School Board”) acknowledges the First Amendment principle that students have a right to access ideas through School Libraries and supports the acquisition and maintenance of materials that are educationally suitable for students.

2. Policy:

2.1. Washington County School District supports the freedom of inquiry, including intellectual and academic freedom in that every student and teacher is able to both seek and receive information from all points of view. At the same time, Washington County School District is sensitive to the reality that a School Library primarily supports the equitable access to information and the education of minors and does not serve the general public. Due to this distinction:

2.1.1. The District’s School Libraries shall contain material of diverse origin, background and viewpoint, including material that is used to support a student's learning in the school setting, but shall not include material defined as sensitive material, as defined in this policy.

2.1.2. Any individual with standing, as defined in this policy, may request a review and challenge any materials used in the District’s School Libraries.

2.2. All employees responsible for acquiring material for School Libraries will be trained on this Policy and failure to comply with the provisions herein may result in disciplinary action pursuant to District Policy 1450.
