

## **Community Council Minutes (Approved)**

**Date:** October 12, 2020

**Time:** 1:15

**Attending:** Brad Bench, Jeff Harrah, Jennifer Morgan, Blain Wilson, Heidi Gunn, Kristina Puriri, Eric Campell,

**Excused:** Kristin Stout, Heidi Gunn, Stephanie Jernagin

**Welcome:** Blaine Wilson opened the meeting and welcomed everyone.

**Minutes:** Minutes from the last meeting were reviewed and approved by the council.

### **Agenda Items:**

#### **Review of State Trust Land Summary for 2019-2020**

Mr. Wilson turned the time over to Mr. Bench. Mr. Bench introduced the final State trust land summary report for 19-20 using the data we do have since we do not testing data. The report is due in Spring 2021. Planned expenditures and actual expenditures matched up except for Transportation was very low due to the covid shut down and conferences cancelled. Equipment listed in Step #1 was approved with the exception of things listed as "various". State trust land budgets pays for training days for teachers and PLC teams. The days listed were lower than normal because of shutdown. Departments who use the most days are Math, LA, Science. For next year, Instead of planning for everyone to have a certain amount. Have each department indicate how many they would like to have or need. Mr. Wilson questioned how teachers dealt with the stress of having to go online. Mr. Campbell answered that it helped to have the prep days provided before students went online. Mr. Bench said that the district implementing CANVAS, the teacher's interest in using CANVAS and the extra training provided for Canvas was helpful. Education is changed forever, this is not just a temporary thing, it's a paradigm shift. CFA proficiency data and CTE testing was looked at since we didn't have any end of level testing to go from as well as AP Spanish test scores. One big expense is intervention. The salaries and benefits goes to help hire extra staff or paraprofessionals to implement our intervention program. We did 10,377 interventions last year. Tier 3 intervention data is the highest level of interventions for students most at risk. These include GRASP, ESL, learning strategies, double enrolled. We have 148 students enrolled in Tier 3 interventions. Their pass rate was 90% which was below the school pass rate of 50%. We had 77 students do credit recovery. 58 were successful in recovering credit. The number is lower than it was in the past and may have been higher if the shut down hadn't happened. We are starting to look at students who are "on track" for graduation. 9th Grade students who pass all classes required for graduation are "on track" to graduate. Even though pass rate may be high, on track rate was only 82%. Tier 3 students were only 55%. This is what we would like to focus on rather than just the pass rate and where TSSA money is used. We held "on track" nights for students who had

failed a core class. Extra training and support for Tier 3 staff. We have been able to do more this year than we have been able to in the past.

This report has been put up on the website, and the final report will be due in Spring 2021.

### **Accreditation Review procedures**

Accreditation visit is Nov 3-6. It will be a virtual visit. The process has been simplified and changed from what it has been in the past. Mr. Bench presented and explained our school plan for accreditation to the council. The report consists of our mission and commitments, assessments and how we use them, Communication with stakeholders, student engagement based on the 21st century skills, our student connections to their school and interventions that we do. It is not known the involvement of the Community Council. The accreditation team will want to talk to parents. In the past it was determined by the team of who they want to talk to. Mr. Bench will offer the community council to talk to if the accreditation team would like.

### **Next meeting:**

Nov 9th 2020

We will report on what we are doing with technology and digital citizenship.

We are going to pilot a 1:1 program with each student having their own device starting January

Meeting Adjourned
